

Procedural Changes

Waste can be minimized by implementing procedural changes such as:

- x Use of micro -scale procedures or simply scale down the magnitude of laboratory and classroom experiments (Chemistry Department)
- x Distill solvents for re -use (Re-distillation unit at USA University Hospital Histology Department)
- x Source segregation of halogenated, chlorinated, ionomeric (1.6d)-5Aim00rin1p>on isei8.7 (e)1.C6 (nm1.6d)-5Bn1p>oc.3 4.7ttmen8.tor
